

## Personal Profile

### **Dr. Christian Meyne** **Chief Operating Officer**

Dr. Christian Meyne has a strong background in project management and has been with Proton Motor since April 2009. He has primary responsibility for production processes including planning, controlling, service, IT and quality management as well as for the technical production lines necessary for both current and future production levels.

In the almost 3 years prior to Proton Motor, Dr. Christian Meyne served as program manager with the Qimonda AG. He was responsible for product development, qualification, market introduction up to first small volume production for several memory-module-portfolios. Prior to that period he was a development engineer for 5 years with the Infineon Technologies AG.

Dr. Christian Meyne holds a degree in physics and a Ph.D. in solid state physics from the Technical University of Berlin.
